

A geometric diagram consisting of several intersecting lines. A central point on the left has three lines extending from it towards the top right, bottom right, and bottom. These lines, along with other lines on the right, form three distinct regions labeled 44, 45, and 46. Region 44 is a large triangle at the bottom, region 45 is a quadrilateral in the middle, and region 46 is a triangle at the top. Each region is enclosed by a dashed rectangular border.
